

The **MODERN JEWEL**

Just like the LEDs that decorate the stacked-stone entryway, the Modern Jewel spotlights a home of the future. Pure-neutral colors and splashes of gold cover everything from the custom backsplash in the butler pantry to the stone-encased and granite-outlined entertainment center. There is "smart" technology in every direction — with touch-keypad and remote-controlled shower heads and handles, picture frame TVs, a calorie-counting refrigerator, a recipe-built-in stove and an air-conditioned lanai topped with a 143-inch projection screen, custom-lit wall art and endless lifestyle possibilities.

◆ Control 4 Smart Home

◆ Stacked Stone

◆ Gourmet Kitchen Appliances

◆ Walk-In Pool Beach Entry
